

Divine Chemicals Company
Innovating Chemistry

Dyilix:

Cationic Fatliquor; Imparts more uniform and rapid chrome tanning distribution with mild lubrication to the fibers, enhances both softness and fullness with smoothness and pleasant handle. Suitable for all types of leather.

Cationic Fatliquor & Dispersing Agent

Product	Base	Appearance	Total Solids %	pH / Charge	Uses / Benefits
Dyilix CF	Fatty acid condensation product	Off white to cream paste	20 ± 2	3.5-5.0 / Cationic	Dyilix CF helps to achieve a more uniform and rapid chrome tanning with mild lubrication to the fibers. It imparts brilliant and touchy nap to the suedes and nubuck. As a top fatliquor for grain lubrication it reduces risk grain of crackness. Dyilix CF enhances both softness and fullness with smoothness and pleasant handle. Because of its high electrolyte stability and mild lubrication Dyilix CF promotes even distribution of chrome in chrome tanning and rechroming thus imparts fullness and softness to the fibers. As a top fatliquor it gives pleasant handle and avoids grain crackness. Suitable for multi-charge fatliquoring system. Suitable for all types of leather. It can be used 0.5-2 % depending on type of leather to be produced and result desired.

Dyisol, Dytan, Dycotan, Dycryltan, Dysyntan, Dyfill, Dyifix, Dyimol, Dyisoft, Dyipol, Dyilix and Dyauxl are Trade Mark and Brand Names of Divine Chemicals Company
